

OPTICAL MARK RECOGNITION (OMR)

Using a sequence of marks, the DS-62 is able to securely process sets of documents with a varying number of pages to ensure they reach the correct recipient, ideal for financial and confidential mail.

PRINTMACHINE SOFTWARE - ENRICH YOUR DOCUMENTS

Neopost's PrintMachine software helps you to add OMR-marks to your documents and access postal discounts. A whole new world of mail creation possibilities will be unfolded.

CUSTOMER AND AFTER SALES SERVICE

Neopost ensures the best customer and after sales service in the world.

INSERT'N FRANK

Automate your total mail flow by connecting the DS-62 to a Neopost franking system.

ENVELOPE OUTPUT OPTIMISATION

Choose the best way to collect your filled envelopes and optimise space, ergonomics and productivity.

WHY CHOOSE NEOPOST?

Neopost is the European leader and a leading worldwide provider of mailing and logistics solutions. Our innovative products and services bring simplicity and efficiency to your complete mailing process to make your business run more effectively.

PRICING IN PROPORTION

All our new machines have been designed with Pricing in Proportion (Royal Mail's new tariff where mail is priced according to both its size and weight) in mind, and are ideally suited to both the professional mailroom and office environment.

DS-62 YOUR OFFICE ASSISTANT

The quiet folder inserter that handles all mail

neopost

DS-62

YOUR OFFICE ASSISTANT

Remember the time when you had to put your mail together by hand? Manually collating, folding, inserting, sealing and stacking your mail pieces is a time-consuming business. But there is a better way, the DS-62 folder inserter. The DS-62 handles all your mail automatically, saving you time and money. It produces a professional looking mail piece and is as easy to use as a photocopier.

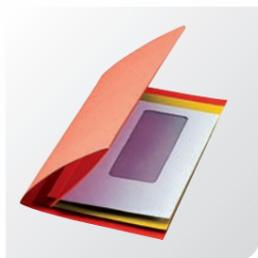

EASY TO USE - AS SIMPLE AS A PHOTOCOPIER

LOAD'N GO - NO SPECIAL SKILLS REQUIRED

PROFESSIONAL LOOKING MAIL PIECE

LOW NOISE LEVEL - FOR ANY OFFICE ENVIRONMENT

FULLY ACCESSIBLE - ERGONOMIC DESIGN

WIDE RANGE OF APPLICATIONS

Does your mail vary in paper size, paper quality etc? Does it consist of invoices, cards or reply envelopes? The DS-62 does it all for you.

The unique flexFeed feeders enable you to process any document size. Do you have inserts that are up to A5 size? Use the Short Feeder for optimised accessibility.

PROFESSIONAL LOOKING MAIL PIECE

Effective communication starts with a professional looking mail piece. That is why the DS-62 collates and assembles all documents before folding them. The result, the recipient opens the envelope and all the documents are presented together, always in the right order.

POWERFOLD5

With powerFold5 you can fold up to 5 pages in tri-fold, crisply and silently, important where mailing costs are based on size as well as weight.

LOAD AND GO

Everybody can use the DS-62. No need for skilled operators thanks to load and Go. Just load documents and envelopes and press the button to Go! The DS-62 will adjust all settings automatically and even save them in the memory for instant recall. Regular jobs? Just run load and Go and store the settings in one of the 9 available jobs.

FITS IN EVERY OFFICE ENVIRONMENT

Low noise level, great flexibility, compact size and matchless ease-of-use, this means that the DS-62 can easily fit into any office environment.

DAILY MAIL

The Daily Mail mode allows you to process up to 5 sheets fed by hand, stapled or unstapled.

SECURE PROCESSING

To ensure that every recipient gets the correct mail piece, Neopost's electro-mechanical thickness detection protects against double feeding. It is insensitive to dust, and works with toner or coloured paper. The DS-62 measures the thickness of every document from each feeder via secure'n Feed.
