I-WEIGH™
SIMPLE, ACCURATE
IN-MOTION
DYNAMIC SCALE

Transform mailroom efficiency with
this perfect add-on to your IJ system

WE VALUE YOUR MAIL

I-WEIGH™

IMPROVE PRODUCTIVITY WITH IN-MOTION WEIGHING

The Neopost i-Weigh™ dynamic scale is a revolutionary in-motion weighing system. It checks size, weight and thickness of mixed mail pieces one by one, applying postage with absolute accuracy.

With a top speed of 120 letters per minute in motion on the IJ-110 mailing system, you can quickly process large mail runs in no time, without presorting – and enjoy the ultimate in mailroom automation.

SAVE TIME AND MONEY

High-volume post users will benefit from huge annual savings with the Neopost i-Weigh™ dynamic scale. By checking not just the weight, but also measuring length, width and thickness of items in motion, it ensures your franking equipment applies the correct postage.

Working at up to 7,200 items per hour, it can halve the time it takes to process mixed weight mail runs. Demands on your staff are reduced, as there is no need to collate mail into same size/weight batches prior to franking.

OUTSTANDING PERFORMANCE AND ACCURACY

i-Weigh's™ maximum throughput is maintained by intelligent mail format sensing, while feed guides ensure that each item is controlled while its weight is determined at high speed. The self-aligning feed system eliminates skew, resulting in a clean, crisp imprint every time.

BETTER MAIL MANAGEMENT WITH ADVANCED ACCOUNTING

Enhanced control of your mailing costs comes naturally with the Neopost i-Weigh™ dynamic scale. When interfaced with the Neopost IJ mailing systems family, it is compatible with Neopost's postage management software so you can track, allocate and analyse your postal costs by department, postal rates and time periods.

INTELLIGENT MAIL FORMAT SENSING FOR ACCURATE POSTAL RATE

PROCESS UP TO 7,200 ITEMS PER HOUR IN MOTION

COMPATIBLE WITH NEOPOST IJ-65 UP TO IJ-110 DIGITAL FRANKING MACHINES

SPECIFICATIONS

WEIGHING CAPACITY (increments 1g)

Minimum Load 3g
Maximum Load 1kg

SPEED

Dynamic Weighing on mode Up to 7,200 letters per hour
Dynamic Weighing off mode Up to 15,000 letters per hour

ENVELOPE SIZE

Length 125 to 330mm (dynamic mode on)
125 to 392mm (dynamic mode off)
Height 90 to 330mm
Thickness Up to 16mm

DIMENSIONS

Width x Depth x Height 545mm x 440mm x 260mm
Net weight 22kg

ELECTRICAL

Power requirements Operates on 240V, 50/60Hz mains

COMPATIBILITY

Compatible with IJ-65 up to IJ-110 franking machines
Compatible with Neopost's Mail Management software

WHY CHOOSE NEOPOST?

Neopost is the European leader and a leading worldwide provider of mailing and logistics solutions. Our innovative products and services bring simplicity and efficiency to your complete mailing process to make your business run more effectively.

PRICING IN PROPORTION

All our new machines have been designed with Pricing in Proportion (Royal Mail's new tariff where mail is priced according to both its size and weight) in mind, and are ideally suited to both the professional mailroom and office environment.
