

IJ-80e

DIGITAL FRANKING MACHINE

The Neopost IJ-80e comes with all the speed, technology and options to increase mailroom output and keep costs in check.

- Envelope processing speeds of up to 180 letters per minute
- Process mixed mail up to 16mm thick
- Track expenditures for up to 500 departments
- PC interface for exporting data and reports

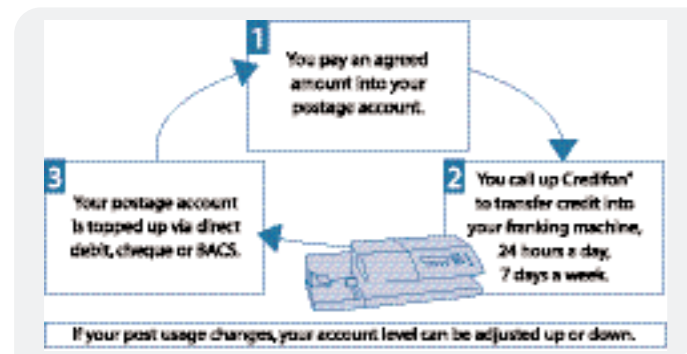

BETTER MAIL MANAGEMENT WITH ADVANCED ACCOUNTING

If you're looking for better control of your mailing expenditure, the IJ-80e makes it simple. Connect it to a PC equipped with Neopost's postage management software so you can track, allocate and analyse your postal costs by department, postal rates and time periods.

CREDIFON®. THE FAST, SIMPLE POSTAGE RE-CREDITING SYSTEM.

Many re-crediting systems are slow and complicated, often requiring long calls. The IJ-80e helps you avoid all that. Neopost's Credifon® system refills your machine with postage in just a few key strokes, getting you back to business in seconds – 24 hours a day, 365 days a year. Just dial the number, punch in your pin and key in the value. It couldn't be simpler!

Credifon® remote recrediting is operated by Neopost over a premium rate phone line charged at £1.50 per minute including VAT (£1.28 excluding VAT). Calls should last no more than 1 minute. You'll receive full and accurate account statements for your postage charges.

PRICING IN PROPORTION

All our new machines have been designed with Pricing in Proportion (Royal Mail's new tariff where mail is priced according to both its size and weight) in mind, and are ideally suited to both the professional mailroom and office environment.

IJ-80e

VERSATILITY AT THE HEART OF YOUR MAILROOM

The Neopost IJ-80e combines speed, modularity and advanced technology to deliver a mailing solution that's simple and effective. It can be the hub of a sophisticated mailing system, or just a fast, robust franking machine for your mailroom. It handles walk-up mail as easily as high volume runs or mixed daily loads of letters or packages. With the IJ-80e, you can configure a system that fits your mailing profile perfectly. Its modular accessories quickly and easily accommodate your needs as they grow or change – meaning you only pay for the capabilities you need.

The IJ-80e is simple to operate yet durable enough to stand up to the demands of the toughest environments.

MAXIMUM FLEXIBILITY IN HANDLING ENVELOPES

The IJ-80e handles envelopes as big as C4, in either portrait or landscape, which can be sealed or not according to your needs. Its high-capacity feeder has an adjustable side guide to hold your large stacks of mail in place, so high-volume, same-sized mailings are dealt with in minutes.

PROJECT A QUALITY IMAGE

100% inkjet and 100% digital technology gives you sharp, clear printing that enhances the professional look of your organisation. A choice of nine customised slogans can be loaded from memory cards and you can add your company name, return address, greetings, slogans – even logos and photographs.

MODULARITY THAT MEETS YOUR NEEDS AS THEY EVOLVE

The IJ-80e can interface with integrated weigh platforms to automatically calculate and apply correct postage to items weighing up to 30kg. You can even weigh a selection of items using differential weighing, which calculates the postage for each piece removed from the platform. Neopost's i-Weigh™ dynamic scale checks not just the weight but also the length, width and thickness of items up to 1kg, automatically and accurately adjusting the postal rate. Posting larger items is made easy with the built-in label dispenser. You can also add a conveyor-stacker to neatly collect your mail – saving even more time and boosting mailroom productivity.

Automatic feeder processes mail up to 16mm thick and handles your mail at up to 10,800 envelopes per hour

Automatic label dispenser stores and prints up to 70 labels, for swift and easy parcel post

The large touch-screen control panel is programmable to make operating the IJ-80e simple and intuitive

Simple operation is aided by automatic date change, as well as job memories which enable you to store settings, with instant recall for re-use

The sealing system ensures a perfect envelope seal

PROCESS UP TO 10,800 ITEMS PER HOUR

FEED AND SEAL MAIL UP TO 16MM THICK

ACCURATELY WEIGH MAIL IN-MOTION AND APPLY EXACT POSTAGE

CONTROL AND ALLOCATE POSTAL COSTS FOR UP TO 500 ACCOUNTS

CONNECT TO A PC TO TRACK, ANALYSE AND MANAGE POSTAL EXPENDITURES

GET MORE IMPRESSIONS FOR LESS

The long lasting ink cartridge reduces operating and supply costs, producing a high volume of impressions per cartridge, and can be conveniently replaced in seconds.

EFFICIENCY AT YOUR FINGERTIPS

The IJ-80e is controlled through a clear, intuitive touch screen that's big enough to read easily and doesn't have you hunting around a tiny keyboard. It's simple for first-time users and fast for experienced operators, giving direct access to important information and one-touch recall of regular jobs.

INTEGRATES INTO YOUR MAILING SYSTEM

When linked to a folder inserter, the IJ-80e gives you all the advantages of a complete mailroom solution with continuous, ready to mail processing. It allows your mail to be folded, inserted, sealed, weighed and franked all in one automatic process, and is perfect for mailshots and other marketing activities.
