ADAPT YOUR SYSTEM TO YOUR NEEDS

The DS-85 can be expanded from 2 up to 6 feeders at any time, providing additional capacity and protecting your investment. Simply add the right module at the right time – as your company grows. The multiple function options allow you to take on more job orders, further optimizing your productivity.

The modular design of the DS-85 gives you peace of mind and ensures that your equipment investment is cost-effective today and into the future.

SPECIAL FEEDERS FOR EXPANDING NEEDS

These optional feeders have been specially designed to handle a wide variety of paper types, including coated material and even small booklets.

MAXIFEEDER FOR SUBSTANTIAL NEEDS

Load up to 1,200 sheets or 325 BREs in the optional maxiFeeder.

INSERT'N FRANK

Automate your total mail flow by connecting the DS-85 to a Neopost franking system.

ON LINE SERVICES

Experience optimised DS-85 uptime through enhanced remote assistance.

WHY CHOOSE NEOPOST?

Neopost is the European leader and a major worldwide supplier of mailing and logistics solutions. Neopost supplies the most technologically advanced solutions for franking, folding and inserting, addressing, electronic document management, address quality software, logistics management and traceability. Our innovative products and services bring simplicity and efficiency to your complete mailing process to make your business run more effectively.

DS-85

YOUR MAILROOM ASSISTANT

IDEAL FOR A BUSY MAILROOM

Quick, versatile and easy to use, with sophisticated process controls to manage content. Full page reading capability allows flexible use of document intelligence marks. Modular design caters for current and future needs.

CASCADE FEEDING

Continuous operation is achieved by cascade feeding. If one feeder runs empty, another one automatically takes over.

- EASY TO USE – EASIER THAN A PHOTOCOPIER
- LOAD'N GO – NO OPERATOR TRAINING REQUIRED
- HIGH PRODUCTIVITY IN A VERY SMALL FOOTPRINT
- LOW NOISE LEVEL – FOR ANY ENVIRONMENT
- MODULAR – IT CAN GROW WITH YOUR BUSINESS

neoCare – YOUR CHOICE

neoCare is a flexible suite of packages of mailroom services, designed to suit both your mailroom and your business. Whether your mailroom operation is critical to your business or you just need additional peace of mind we have the right package for you.

For every Neopost product there is a choice of inclusive support.

totalCare+

Total reassurance for business critical and high volume operations
Keep your mailroom fully operational with the highest levels of service

totalCare

Excellent value for money for day to day operations
Ensure your mailroom runs smoothly and make your life easier with inclusive service support

FULL CONTENT CONTROL AND SECURITY YOU CAN RELY ON

Thanks to its exclusive scanning device, the DS-85 can read any type of coding such as OMR 1 and 2 tracks and 1D barcodes. Furthermore, the code can be printed anywhere on the document. This unique feature provides full flexibility to fulfil any layout requirement.

To securely process personalised mail runs and those with a varying volume of documents per set, the DS-85 includes several automatic

features to ensure that every recipient receives precisely the right mail piece.

- Reading of sequencing marks allows you to control printing accuracy and inserts can be selected based on customer profile.
- Optional Integrity Checking Software ensures 100% accurate mail processing.

EASY TO USE

Everybody can use the DS-85. The reverseable full colour touch screen and load'n Go will both give you ultimate ease-of-use.

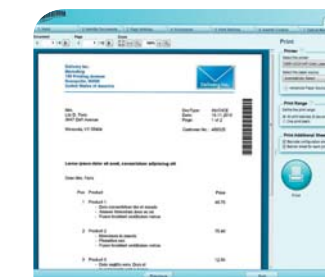

No need for trained operators thanks to load'n Go. Just load documents and envelopes 'n press the button to Go! The DS-85 will adjust all settings automatically and even save them to the memory for instant recall.

THE FLEXIBLE SOLUTION FOR EVERY MAILROOM

Thanks to Neopost's unique flexFeed technology, you can load any document size in each of the 6 feeders. The variety in applications is up to you. Furthermore, you don't need to fan documents before loading.

AUTOMATE YOUR DOCUMENT PROCESSING

Neopost's Output Management Software (OMS-100) will get the best out of each and every one of your documents.

- Automatically add Barcode at the right place to drive your folder inserter.
- Remove your old OMR marks, giving more value to your document.

- Select inserts from multiple trays.
- Guarantee your mail integrity with secure control marks.
- Split your print file based on number of pages.

THE MANUAL FEED MODE AUTOMATES PROCESSING BY HAND

The Manual Feed mode allows you to process up to 10 sheets fed by hand, stapled or unstapled. Ideal for personalising mail for just one or a few individual recipients. It provides you with a professional looking mail piece with all the benefits of DS-85's mail processing.

SMART SOLUTIONS TO MAXIMISE MAILROOM PRODUCTIVITY

To avoid stoppages and maximise efficiency, the IntelliDeck diverts duplicate or faulty documents before folding while the system is still running.

The high capacity vertical stacker will reduce incidences of unloading, thus enabling other tasks to be done in the meantime. It requires less handling and makes it possible to unload up to 500 envelopes every 8 minutes while running at maximum speed.

CREATE YOUR OWN PROFESSIONAL LOOKING MAIL PIECE

Collating documents before folding them is not only faster than collating them in the envelope, it also ensures a perfect presentation and reduces the risk of jamming.

With powerFold you can crisply and quietly fold up to 10 pages in single fold and 8 pages in tri-fold. The clam shell design of the DS-85 allows easy access to the folder.

MONITOR, SECURE AND TRACK YOUR PRODUCTION OUTPUT

Neopost offers you the security that your printed jobs are actually being mailed. Mail Piece Production Control adds a unique ID to each letter within the address block and builds up an audit trail for each production job.

Equipped with MPPC, your DS-85 can scan a barcode on every mail piece. This ensures total quality control of your mail batch and identifies missing or out-of-sequence letters.

All in all this provides you with real-time quality control and detailed line-item reports:

- Assurance that jobs are accurate and complete.
- Real-time failure detection of missing or 'out-of-order' mail pieces.
- A hard-copy 'Proof of Mailing' report for each mail production job.
